Presented by: Fred Santarsiere VP Cino Security Solutions

Cyber Protection: Optimizing the IT Environment to Reduce Cyber Risks

Learn how to develop a Risk **Governance** approach that *aligns* with the club's goals and objectives.

- Reputation
- Financial Impact
- Business Operation
- Member Data

Determine how to develop a program that aligns with the club's goals and objectives for continuous risk visibility.

- Yearly full testing
- Quarterly Scans
- Periodic briefings to BOD/Audit Committee

How to optimize the club's protective posture to reduce Cyber Risks: Gap Analysis

- Evaluate Risk management documents in place (BCP, IRP, DR, CUA)
- Initial evaluation of the IT environment (External/Internal)
- Documentation of End user Security Awareness Training and Phishing Testing
- Cyber Liability Insurance application review
