

USALI

Uniform System
of Accounts for the
Lodging Industry

Invest in the Leading Financial Lodging Resource

USALI

Uniform System
of Accounts for the
Lodging Industry

Widely used as an international resource, the primary purpose of the USALI is to offer operating statements formatted to provide hotel owners, managers and other interested parties a standard for hospitality accounting.

The most current edition of the Uniform System of Accounts for the Lodging Industry (USALI) is the 11th revised edition published in 2014.

In 2018, HFTP purchased the copyright to the USALI and is now its publisher. The association plans to leverage its resources as an international organization to drive greater global adaptation.
